NATURKRAFT

Product code: JL/JV/UL/UV

Paper for boutique bags manufacturing

This paper made of 100% virgin long fibre has a characteristic gloss side ideal for boutique bag design. It is printable and offers high tensile and tear strength. Both plain and laid ribbed are available. Quality: JL/JV without print, UL/UV with print.

Main Advantages

FORMATION

This paper offers a **closed sheet** which reduces the need to use large quantities of ink, glue etc. Guaranteeing the best printing quality for boutique bags with luxury finishing.

RUNNABILITY

This paper range stands out for its ability to **withstand high mechanical strength** and high-speed handling processes.

FOOD CONTACT

Our entire range of papers is **certified for food contact**. Bfr and FDA certifications according to the corresponding standard.
